

American Library Association (ALA) 2025 Election

April 7, 2025

Sheryl Reyes, MPH, MSMIS
Director, ALA Governance Office
ALA American Library Association
225 N Michigan Ave, Suite 1300
Chicago, Illinois 60601

Dear Sheryl Reyes:

YesElections is pleased to announce the compiled results of the American Library Association (ALA) 2025 Election for the American Library Association. We have ensured that all aspects of the administration of your election were executed in accordance with requirements provided for the American Library Association (ALA) 2025 Election.

The voting period ran between March 10, 2025 and April 2, 2025. 8,598 ballots were cast.

On February 20, 2025, YesElections sent a pre-election email to determine bounce backs. For members without a valid email address on file, YES mailed a notice letter via USPS First class mail in an official depository under the exclusive care and custody of the U.S. Postal Service within New York State on March 7, 2025.

An initial email was sent at opening and four reminder emails were sent throughout the duration of the election period to only those members who had not voted or who had not completed their ballots. The emails and paper notice letter contained all of the necessary information needed to participate in the election, including a URL link that took the voter directly to their online ballot after logging into ALA's member portal. By logging into ALA's site, this authenticated the voter, verifying that they were an eligible member.

YesElections performed a QA Results test of the ALA election event on March 4, 2025 to review the online ballot and test the quality control procedures. A voting record is saved for each ballot, then the election event is decrypted to obtain the QA Results. A comparison of the voting record and QA Results showed no errors during this process.

Additionally, a Proof Test was conducted on March 6, 2025 by YesElections, to perform an additional review of the online ballot and quality control procedures with the voter list provided by ALA. ALA's support staff was also given the opportunity to spot check the voter list for appropriate ballot style eligibility in the Proof phase of the election event. No errors were present during this process.

American Library Association (ALA) 2025 Election

ALA proofed, tested, and approved all election materials before the election went live on March 10. During the election phase, all of the online ballots processed followed the same quality control procedures, and we can certify that the election results are accurate.

During the transition from the nominations phase to the election phase, a configuration error occurred in the setup of the Web Bridge, our single sign-on (SSO) feature. This misconfiguration impacted how user data carried over between phases, and as a result, some ballots may have been missing sections when initially accessed. Once the issue was identified, our technical team corrected the configuration to restore full functionality. To ensure transparency and accuracy, we sent an email on March 24, 2025, to 842 potentially affected members, asking them to review their ballots and confirm all appropriate sections were visible and complete. We sincerely apologize for any confusion or inconvenience this may have caused and have updated our internal processes to help prevent similar issues in future elections.

I am not related to any of the recipient(s) by way of blood, adoption, marriage or employment, but serve as a disinterested third party.

Thank you. It has been a pleasure working with you.

Sincerely yours,

Chris Backert
CEO
YesElections
